## Professional Summary

Automation Engineer with 3+ years of experience designing and delivering scalable RPA solutions using UiPath RE Framework, Microsoft Graph API, ENABLE and Java. Proven track record of automating end-to-end enterprise processes, improving efficiency, and reducing manual effort across complex systems.

## Work Experience

### Ericsson

Automation Engineer | Jan 2023 – Present

- Designed and deployed **end-to-end RPA solutions** using **UiPath RE Framework**, automating enterprise workflows and significantly reducing manual effort and processing time
- Integrated **Microsoft Graph API, Remote Runtime, Computer Vision, LINQ**, and enterprise tools such as **ITSM and Citrix** to automate complex, cross-platform business processes
- Conducted **feasibility analysis and R&D** for multiple automation POCs, identifying high-impact use cases and scalable automation opportunities
- Developed reusable automation components and workflows to improve maintainability and scalability across multiple projects

### Persistent Systems

Martian Intern | May 2022 – June 2022

- Completed structured training programs focused on **enterprise software development and automation concepts** through Persistent's Alpha Learn platform
- Gained hands-on exposure to industry-standard development practices, tools, and collaborative workflows

### Kaizen Labs

Flutter Developer Intern | Mar 2022 – May 2022

- Collaborated within an **Agile development environment** to design and develop features for a cross-platform Flutter application.
- Worked closely with **global team members** to deliver responsive UI components and improve application usability under fast-paced project timelines

## Skills

### Core Automation & RPA

- UiPath RE Framework, UiPath Orchestrator, UiPath Autopilot, Agentic AI
- End-to-End Process Automation, Feasibility Analysis, POC Development, UAT Planning, Process Monitoring
- Computer Vision (UiPath CV), Remote Runtime
- Microsoft Graph API, ITSM, Citrix Automation

### Programming & Scripting

- Java (Core), LINQ, HTML5, SQL
- Python
- Dart

### Tools & Platforms

- GitHub, MySQL, Firebase Firestore, SQLite
- IntelliJ IDEA, Android Studio, VS Code
- UiPath Studio

---

## Projects

**Atten** - Attendance & Payroll | 2022 

*Personal Project*

Built a production-ready attendance and payroll system combining **biometric authentication** and **automated salary disbursal**

- Implemented real-time face recognition using TensorFlow Lite and Google ML kit
- Incorporated payroll disbursal using RazorpayX APIs
- Designed intuitive and responsive UI and UX

---

## Certifications

- UiPath Fundamentals
- BCSS Cloud Fundamental Level 2024
- Cisco Networking Academy Introduction to Networks

---

## Education

**Graduation: Gyan Ganga Institute of Technology & Sciences**

- CGPA - 8.24 | B. Tech | CSE

**Schooling: Bardsley Eng. Med. Sr. Sec. School, Katni (MP)**

- Class XII - 70.1% | Intermediate | PCM | CBSE
- Class X - 81.7% | CBSE

---

## Personal Strengths

Leadership, Stakeholder Communication, Problem Solving & Root Cause Analysis, Ownership & Accountability, Analytical Thinking, Team Collaboration

---

## Languages Spoken

Hindi, English
